

CRYO STORE[®]

CRYOGENIC STORAGE AND LOGISTIC SOLUTIONS
FOR HEALTHCARE, BIOCHEMICAL & PHARMACEUTICAL INDUSTRIES

Now there's a biotech gateway to Europe

- virtual warehousing
- longterm-storage
- drop shipments

we move science

About Cryo Store

Cryo Store is a Dutch-based logistics company with more than 10 years of experience in biotech distributing and handling of temperature-controlled goods. Being based in the "heart" of Europe means that we have fast access to our neighboring countries which reduces delivery times to a minimum.

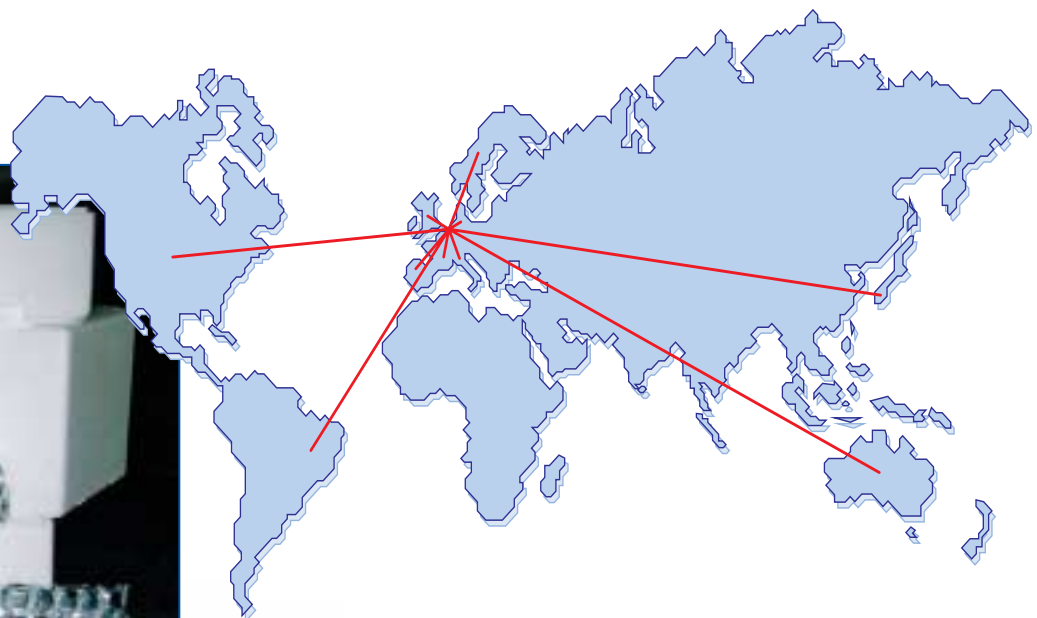

Our goal is to offer biotech and pharmaceutical companies a gateway to Europe by offering storage and "dropship" facilities.

Just a few of the benefits:

- Expanding sales to the European market with minimum of investment in logistics.
- Virtual appearance on European market
- No investments in storage space or personnel
- Fast delivery of your product anywhere in Europe
- Cost reduction

We can take away your daily distribution headache and finally you can focus again on the things your good at. Please spend your precious time on research and product development and let Cryo Store do the rest.

We move science

Distribution

Cryo Store is able to distribute your product according to your standards. We have a wide range of shipping boxes available, we label your shipment according to international transport standards and we even offer you the ability to put your own logo on the box.

We have dry ice production on site and numerous options available to ship your product fast and safely in the temperature range of ambient to $-196\text{ }^{\circ}\text{C}$ anywhere in Europe.

We use only the best couriers for your shipments and all your products will be traceable at any time during transport. Of course you will receive a notice when the parcel has arrived to your customer.

So sit back and relax while Cryo Store takes care of your shipments.

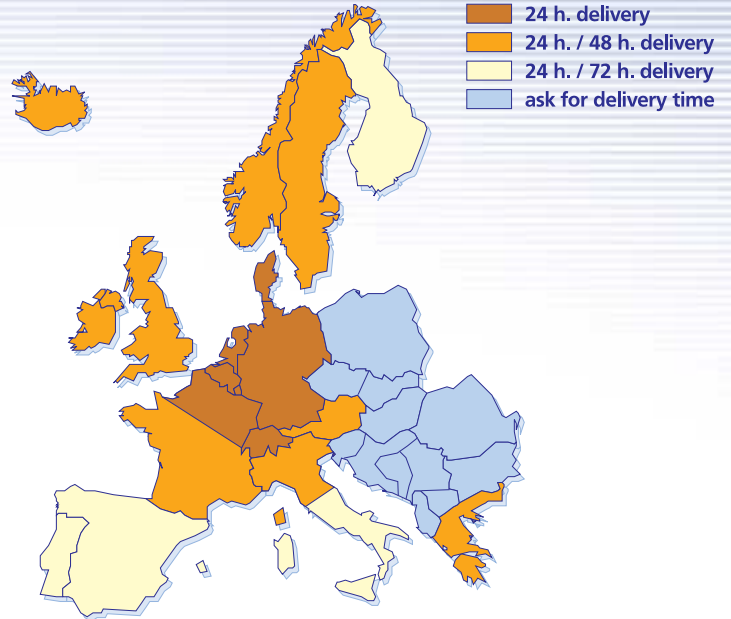

Storage

We offer storage at temperatures between ambient and $-150\text{ }^{\circ}\text{C}$. We can provide you with facilities for long-term and or distribution storage.

All our temperature control storage facilities meet the highest safety standards regarding temperature control and emergency back-up.

You don't need a whole freezer for your products?? No problem! Cryo Store can offer you 1/5 of freezer space at a reasonable cost.

The capacity of our freezers is approximately 17 cu. ft. (30,000 vials 2").

You pay one price for all our services (including temperature registration and inventory control).

Need to store clinical trials
you can park them in our freezers at any time.

Have you always wanted to store an extra production run of your product on the other side of the ocean, just to be safe??

Cryo Store makes this possible at a reasonable price!!

Cryo Store also provides services for temperature-controlled shipments to USA and Asia so if your customers feel uncomfortable in shipping temperature-sensitive material to you, give us a call or e-mail us for tailor-made solutions.
